

PHOENIX MECANO

ROSE - BOPLA ENCLOSURES

PROGRAMME OVERVIEW

ENCLOSURES

ENCLOSURE SYSTEMS

ROSE BOPLA

With over three decades of experience in the manufacture of enclosures for use in industrial, junction box, display & operating and electronic applications, ROSE and BOPLA offer one of the largest line of enclosure systems in the world.

These enclosures are available with ingress protection up to IP67, with a wide choice of materials - aluminium, polyester, ABS, polycarbonate and stainless steel.

This programme overview is designed to give you some idea of what is on offer from Phoenix Mecano, and will help you locate just the right needs from our extensive selection.

Phoenix Mecano, your powerful partner, stands for more than just a supplier of an empty enclosure, but rather a complete product . Our range of high quality enclosures are backed by a continuously expanding range of services to meet your needs. We offer the following services:

- Mechanical Processing - drilling, tapping, milling
- Screen or Pad Printing
- Fitting of terminal and other electromechanical components
- Pre-wiring
- EMC Measures

At our warehouse in Vasai we stock more than 1000 different items which enables us to react to your requests in a matter of days. In addition we are backed by extensive stock of more than 15,000 items carried by ROSE and BOPLA which ensure that from development to series production of your product your enclosure requirement can be met within a few weeks.
